GLOBAL CHALLENGES, CHEMISTRY SOLUTIONS

American chemistry is essential to our economy and plays a vital role in helping to solve the biggest challenges facing our nation and our world by driving innovations that make our lives and our world healthier, safer, more sustainable and more productive.

Unprecedented access to domestic natural gas is helping to drive a renaissance in U.S. manufacturing. Renewed competitiveness in America's chemical industry is helping to create jobs, grow payrolls and generate new tax revenue, affirming the chemical industry's role as the cornerstone of our country's economic future.

September 2018

At **\$12.9B**, is the
4th largest
manufacturing
industry in the state

Makes Georgia the
12th largest
chemistry producing
state

Provides
18,032 direct jobs
and another
24,155 related jobs

Generates
\$1.3B in payroll
across
431 establishments

Has an average wage of
\$71,462,
23% higher than
the average
manufacturing wage
